

## Danny's story

"TLG is like a family. They genuinely cared about me and I gradually began to trust them. They really were persistent and helped take me to where I needed to be in life. After TLG, I returned to mainstream school. Then progressed on to college and university.

"The staff I was surrounded by at TLG were different from anywhere I'd been to school before. They were helping kids like me, not for their own gain, but for God."
